Splendor™

8 – Thread Serger

ExtraordinAir® Threading

With just a gust of air, ExtraordinAir instantly takes thread through all loopers. Threading has never been this fast, easy or extraordinary!

Automatic Thread Delivery™ System

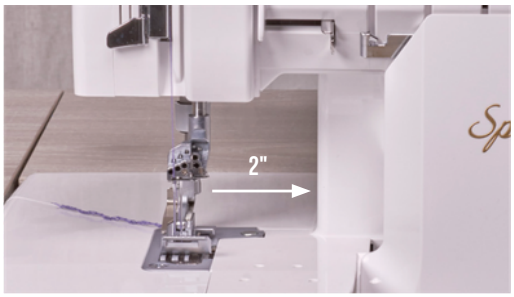
With the ATD system on the Splendor, the exact amount of thread is delivered for all of your overlock stitches regardless of the fabric thickness or the type of thread you are using. Perfect results happen every time!

Deluxe Trim Bin

The included Deluxe Trim Bin slips easily into place for those times you are trimming fabric in overlock stitches. With its low-profile design, it affords easy access to all your adjustment dials.

Knee Lifter

Raise the presser foot by simply moving the attachable lever with your knee. This leaves both of your hands free for stitching.



Spacious Workspace – 2" to the Right of the Needle

With a spacious workspace, you can easily serge a large project or add decorative stitches to fabric creating a custom look that lets your creativity shine.

Chain/Cover Flat Sewing Table

With two sets of positioning screws on the included table, you'll have the perfect position for all your favourite attachments! Take advantage of being able to use the popular Knit/Woven Bias Binders and the Fabric and Hemming Guide, expanding your finishing opportunities for projects.

The baby lock Experience

Education

We provide you with a comprehensive library of education and training so you'll always have something to learn.

Service

We provide the highest quality products and services, and can meet your needs better than anyone else.

Support

You can rely on baby lock for the support you need to get the most out of your machine.
